How do marketers keep up with culture that's constantly evolving?

BRAVERY THAT BREAKS THROUGH

Growth sits in the unknown and uncomfortable, and requires brave experimentation to unlock it.

2023 saw the TikTok community gain the confidence to break away and reinvent the status quo in how they create and consume content. More people are creating more often, as the barriers and learning curve lessen, creating an endless abundance of relevant content.

What drives those who keep growing and moving forward? What limits those who are stuck, or who haven't started at all? How can you *break through*? The wall between the two isn't tall, but it can be intimidating to climb if you've never done it before.

In 2024, the TikTok community will ignite a transformative mindset: **Creative Bravery**.

While the call to be brave in creative and media has echoed for years, the bar for bravery was formulaic until the TikTok community elevated the game and showed us what it truly looks like. Fueled by a blend of curiosity, imagination, vulnerability and courage, **Creative Bravery** on TikTok leads to deeper community connections and revelations about what people value.

“

Because TikTok has democratized creativity and has leveled up the creativity in the way it has, it has set a new bar for brands and everybody out there. And that's exactly what the industry needs right now.

Dalit Saad

Co-Founder & CCO, Kvell
Made For TikTok, Episode 4

Breaking through on TikTok means shifting from occasional displays of **Creative Bravery** to infusing it into our daily behaviour and strategies.

In fact, taking strategic risks and being vulnerable is now the ultimate brand strategy, where leaning into micro insights and showcasing quirks can be your superpower. **Creative Bravery** drives impact by piquing global curiosities, flipping traditional story arcs, and deepening trust between brands and their audiences.

To help marketers and advertisers create in this bold way, TikTok provides resources to match the pace of culture and craft winning, on-trend content. The TikTok community has become teachers, and we're here to invite brands to shape culture alongside them.

The unknown and uncomfortable is what creates the unimaginable - and those brave enough to create for it won't just keep up, they'll flourish.

Community-Fueled Storytelling

While stories can stand alone on TikTok, part of the fun for audiences is to thread unexpected stories together in gripping and surprising ways.

What's Happening

Predictable stories grab less and less attention.

What's Next

The collaborative spirit of TikTok is reinventing typical story arcs, leading to disruptive narrative formats that surprise audiences and capture their attention while also inspiring them to join in on the fun.

Community-Fueled Storytelling

Stay Tru to the Delulu

Rooted in fandom culture, #delulu is a mindset and storyline format escalated by the TikTok community. It's a blend of fantasy and manifestation - adopting a fake-it-til-you-make-it persona for audiences to tap into, fantasizing about their dream #delusionship (delusional relationship), manifesting the confidence of #tubegirl, or adopting the mindset of a more senior work title. "Stay Tru to the Delulu" is a shared community of delusional comfort and confidence for audiences to imagine and inspire beyond the limits of today's overwhelming reality.

BRIDGING THE TRUST GAP

There continues to be a growing trust gap between consumers and brands igniting audiences to seek beyond the engagement of a one-time sale. They're also looking for brands to lead positive societal change and transparency. Establishing clear brand trust and values are non-negotiables. On TikTok, brands have an open line of communication with their consumers and community, and can leverage creators as shortcuts. Each campaign and organic piece of content is an opportunity to share, listen, and learn, building brand trust and values together to generate deeper loyalty on and off-platform.

What's Happening

Brands are unsure how to meet growing consumer expectations for trust and transparency.

What's Next

Brands on TikTok are unlocking deeper consumer trust and influence through actively listening and growing together with their audience.
